

Skilled Nursing Care

Professional and experienced staff provide person-centered care management 24 hours a day with a focus on improving quality of life for each resident. On-site physical, occupational and speech therapies are available. Diversified recreational life enrichment programs are designed for entertainment and therapeutic value. Our dining rooms offer restaurant-style accommodations with choice of entrée. Scheduled transportation to medical appointments is included.

Kingsway Arms Nursing Center

Kingsway Arms is proud of the reputation we've earned. Since opening in 1975, Kingsway has been recognized for excellence in nursing care. Our focus on improving the quality of life for every resident sets us in a class of our own. Kingsway Arms develops an individualized care plan for each resident and recognizes the most important elements of any therapeutic program are the dignity and respect of each individual.

Kingsway Arms is licensed by the New York State Department of Health and is a member of the American Health Care Association, the New York State Health Facilities Association, the American College of Health Care Administrators and the New York Association for Long Term Care Administrators.

Rehabilitation

The goal of Kingsway Arms is to provide the most comprehensive rehabilitation in the long term care setting. The restorative physical, occupational and speech therapy programs are designed to promote the highest quality of life and independence for our residents with an emphasis on returning home or to a lower level of care.

As part of our seamless continuum of care, Kingsway Arms has developed rehabilitation programs and services to meet the varying health needs of our residents. These programs allow us to better manage some chronic and post-acute conditions and promote shortened recovery periods. They may also reduce the need for hospitalization for some residents, which helps maintain a higher quality of life. The rehabilitation programs are designed to prevent re-hospitalization so that we can treat certain conditions in place.

Post-Acute Services:

- Intravenous Therapy
- Enteral Feedings
- Wound Care
- Tracheostomy, Colostomy and Gastrostomy Care
