

Kingsway Arms Nursing Center
Resident Outings (Non-Medical)

At this time, the COVID-19 local Community Transmission Rate remains “HIGH” as measured by the CDC. While resident outings are discouraged, residents are permitted to leave the facility as they choose.

Residents, families, and friends are reminded to always wear a facemask, socially distance, and practice hand sanitizing often.

Upon return to the facility, the resident will be screened for signs or symptoms of COVID-19 and asked if they had contact with anyone who is positive with COVID-19. If the answers to any of the screening protocol is yes, the resident will be tested and placed on a 14-day quarantine. Should the resident spend an overnight out of the facility, COVID testing will be required upon return.

For any resident choosing to go on an outing, whether it’s a few hours or even a few days, coordination is necessary to assure we have any necessary medications, oxygen, supplies, etc.

With a little advance planning, we can help make sure your outing goes as smoothly as possible.
